## Authors and Illustrator

Husband and wife duo, Theo and Afroditi have been primary school educators for many years both in Australia and overseas.

They live in Melbourne with their three young children where they get plenty of inspiration for their writing. As a family, they enjoy reading lots of books, drawing, visiting museums and exploring nature.

They always wanted to write their own stories as they want to inspire children to love reading and to become confident little scribes.

Christina Miesen is an illustrator with a liking for books that began many moons ago. She loves drawing and bringing characters to life with colour and line. Once upon a time, she illustrated with paints and paper but now she enjoys creating her pictures digitally. Christina lives in Melbourne with her husband and her four children.
